

## Special Education RESOURCES

All public schools are required by law to serve all children, including those with special needs. Enroll Oakland does not specialize in special education, but we can offer some general tips. Be an advocate for your child:

- Start with an **Individualized Education Plan (IEP)**. The IEP is a plan or program developed to ensure that a child who has a disability identified under the law and is attending a public school receives specialized instruction and related services.
- Make sure the school is following your child’s IEP. If your child does not have an IEP, contact your current school’s administration and request that your child be assessed. If you have questions that are not being addressed by your current school’s administration, contact the school district’s office and ask for a meeting with their Special Education Department.
- Enroll Oakland **DOES NOT** advocate one school over another, so we cannot make a recommendation for the best school for your child. However, if you are interested in making a change, contact the school first to learn more.
- **Disability Rights Education & Defense Fund (DREDF)** offers assistance to help guide parents through the special education process: 800-348-4232 or [iephelp@dredf.org](mailto:iephelp@dredf.org).
